August 2013 – May 2017

January 2018 – Sep 2019

Marcel Trading Corporation

5/F, First Marcel Tower, 926 Araneta Ave., Quezon City

Microbiologist / QA Analyst

- Conduct and record microbiological tests of products and sanitation of plant facilities
- Conduct and record rheological, physic-chemical tests of products to ensure quality and safety
- Conduct experiments for product development based on available or required raw materials
- Investigate, analyze nonconformities and recommend correction and corrective action

October 2012 - August 2013

Jollibee Foods Corporation

5/F Jollibee Plaza, Emerald Ave., Ortigas Center, Pasig City

Part-time Project Employee: Sensory Analytical Panelist

- Determine the attributes and measure attribute intensity of food samples during descriptive test session
- Identify odd sample conscientiously during discriminative test session

March 26 – May 25, 2012

National Food Authority

Visayas Ave., Quezon City

Internship: Laboratory Analyst

- Conduct sample preparation to determine purity of rice grains using foreign matter analysis, headrice and broken analysis, defects, damaged and discolored analysis, and age determination analysis
- Perform Moisture Content, Whiteness and Milling Degree Determination

❖ TRAININGS AND SEMINARS

April 24 - 26, 2019

Awareness on current Good Manufacturing Practices

Philippine Trade and Training Center

Roxas Blvd., Pasay City

October 19, 2016

What's In Your Drink? Quench Your Thirst With Functional Beverage

Dairy Beverages (Probiotics) – Speaker

Philippine Women's University – Manila

April 20 – 22, 2016

Meat Processing Training

Animal Products Development Center

Marulas, Valenzuela City, Metro Manila, Philippines
