Isabel Louise Vicente

Full Stack Web Development Instructor

Full-stack Web Development graduate from Uplift Code Camp and Junior Web Development Instructor in One Code Camp. Seeking a job as a Junior Software Engineer and use the knowledge I acquired in the bootcamp and current teaching experience to meet client needs.

Previous experience as a Food Technologist in the Quality Assurance department and Research and Development, as well as being a Community Manager, made me adept in translating my knowledge into leading projects. I can also communicate productively with both technical and non-technical personnel and clients.
